OBJECTIVE

Control Union (Malaysia) Sdn. Bhd. is organizing the **GGL Sustainable Biomass Dialogue** in conjunction with the Sustainable Action Conference (SAC), scheduled to be held on **19th February 2025 from 2.30pm - 5.20pm** at **Sheraton Petaling Jaya Hotel**.

Under the theme **"From Compliance to Impact: The Future of Biomass Certification"**, this half-day event will delve into the evolving landscape of biomass certification, covering the latest updates, key trends, challenges, and opportunities within the energy and biobased sectors, all aimed at fostering a sustainable future.

This dialogue is essential for industry stakeholders, business leaders, and compliance experts to stay ahead of the curve, offering an opportunity to engage in discussions on the biomass sectors to meet global standards and tackle emerging industry challenges.

KEY TAKEAWAYS

- **Gain Insights:** Gain an in-depth understanding of GGL certification standards, and recent updates from experts in driving sustainability.
- **Stay Ahead with ESG & Sustainability:** Discover how compliance and certification create competitive advantages.
- **Compliance & Reporting:** Learn the importance of ESG compliance and Global Reporting Initiative (GRI) standards in driving sustainability in the biomass industry.
- **Risk Mitigation Strategies:** Understand how inspections and quality assurance can reduce shipment risks and improve trade reliability.
- **Networking:** Connect with industry experts, key players including producers, certifiers, and policymakers to explore new opportunities.

WHO SHOULD ATTEND

Power Plants

Biomass
Manufacturers

Biomass Traders

Transportation &
Logistic Service
Providers

Industry
Stakeholders

By Invitation only. Kindly scan to pre-register or contact us at bdcumalaysia@controlunion.com / +603-3000 4132

Sustainable Biomass & Biofuels Certification Programs

What we offer

Sustainable Biomass Program (SBP)

ISCC - Certified Biomass and Bioenergy

ENplus®

2BSvs - Biomass Biofuels
Sustainability Voluntary Scheme

REDcert - Biomass for Energy

Green Gold Label

SURE - Verification Scheme

Upstream Emission
Reduction Verification

KZR INiG System

Government specific schemes,

- Dutch double counting (Netherlands).
- Italian National Standard (Italy)

Other Services

- Warehouse Inspection
- Sampling and Sealing
- Laboratory Services
- Stock Monitoring and Measurement
- Full Outturn Guarantee
- Draft Survey
- Representation port of loading/discharge
- Pest Control
- Temperature Monitoring
- Weight and Quantity Determination

ESG

What We Offer

Carbon Validation & Verification Programs

ISO 14064 - Emission Verification Services

Carbon Neutral Certification

Verified Carbon Standard - VCS project
Validation and Verification

Gold Standard Certification

Plan Vivo - Carbon offset project
validation/verification

MRV Program

Sustainability Assurance Services

Global Reporting Initiative - Sustainability Report Assurance

AA1000
Licensed Assurance Provider
000-779

Other Assurance & Verification Services

- Traceability & Verified Deforestation Free (VDF) Verifications
- No Deforestation, No Peat & No Exploitation (NDPE) Implementation Reporting Framework (IRF) Verification
- SPOTT, ESG External Assurance
- Global Sustainable Enterprise System (GSES)
